Brand New Book ***** Print on Demand *****.Excerpt from A System of Modern Geography, Designed for the Use of Schools and Academies In presenting to the educational world an entirely new work, to take a place in Mitchell s Geographical Series, a few words as to its plan and general scope should be offered: Care has been taken to make it what its name represents it to be, an intermediate geography, neither too learned for pupils who have already mastered the First Lessons and Primary, nor too juvenile for the higher classes, with whom Geography is always a very important branch. The general order observed in the work is as follows: 1. A lucid definition of the science of geography, and a logical division of it for the purposes of study. This part is arranged in a series of questions and answers. The geometrical diagrams have been much simplified. II. When the maps are reached, the arrangement is regular throughout the work; first the map, then, opposite, the questions on the map, and then the descriptive geography of the countries which are on that...
