Java(TM) servlets offer the technical advantages that Internet
developers need and high traffic Web sites demand. Inside
Servlets teaches everything you need to know to exploit the
power and portability of Java servlets for your Internet
applications. Providing a tutorial, advanced guide, and
reference, the book begins with a comprehensive introduction
to servlet technology, architecture, and basic programming
concepts intended for client/server developers and others who
may be new to Internet programming. It then progresses into
the advanced techniques experienced developers need to
create sophisticated, interactive Web sites. 434 pp. Deutsch.
