

The Pea and the Sun: A Mathematical Paradox

Filesize: 3.95 MB

Reviews

Complete guideline for ebook lovers. Better then never, though i am quite late in start reading this one. Its been printed in an remarkably simple way in fact it is only right after i finished reading this book through which in fact transformed me, alter the way in my opinion.

THE PEA AND THE SUN: A MATHEMATICAL PARADOX

A K Peters/CRC Press, 2005. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "engaging, thorough, and fascinating explanation of one of mathematics" most perplexing paradoxes. Wapner's book is a skillful blend of history, mathematics, and philosophy that will please both mathematicians and the merely math curious." -Keith Devlin, Stanford University, April 2005" The author gives a fascinating account, in a journalistic style, of the history of the Banach-Tarski Theorem, devoting a chapter to the cast of characters, including Georg Cantor, Kurt Gdel, Paul Cohen, and of course Stefan Banach and Alfred Tarski. . . .What is presented in this book is maths for its own sake: beautiful, elegant, artistic, astonishing. . . . it would surely make a great present for a budding pure mathematician - and what a present it would be, to give someone their first inkling of the wonders that lie at the heart of pure mathematics." -Helen Joyce, Plus Magazine, September 2005"Written in a fresh, captivating, friendly style, The Pea And The Sun is remarkably engaging and will appeal to any reader with a discerning, inquisitive mind into the nature of the so-called impossible, regardless of their particular mathematical background." -Bookwatch, October 2005"Leonard Wapner, Professor of Mathematics at El Camino College in Torrance, California, makes the BT paradox the centerpiece of a marvelous book (his first, by the way)." - Martin Gardner -Martin Gardner, The New Criterion, October 2005".the book has a little something for everyone." -J.M. Plotkin, American Mathematical Society, November 2005The Pea and the Sunmakes Librarian's Choice in Non-Fiction for 2005 - Librarian's CHOICE Magazine , January 2005"Wapner reaches out and tries to explain a truly amazing result to an audience without serious mathematical training. He keeps the reader interested and he explains some very interesting things about set theory...
