APress. Paperback. Book Condition: new. BRAND NEW, Accelerated Silverlight 2, Jeff Scanlon, Julian Skinner, Accelerated Silverlight 2 will get you up to speed with version 2 of Silverlight quickly and efficiently. Author Jeff Scanlon assumes you're already comfortable with the basics of .NET coding and with Windows Presentation Foundation (WPF), and helps you build on your existing knowledge to make your journey to Silverlight 2 proficiency as quick and painless as possible. Where coding techniques are similar to other, more established areas of .NET, he'll say so. Likewise, where there's a syntax or conceptual "gotcha" that you're existing coding habits will walk you into, he'll point that out, too. You'll find fast--track coverage of all the most important elements of the Silverlight 2 technology ranging from XAML to standard controls, from dealing with media to networking, from testing to deployment. Two fully-worked sample applications conclude your path to Silverlight 2 mastery because nothing reinforces your understanding of how concepts fit together as much as looking at finished code. The book is based on the assumption that readers will already be very comfortable with the workings of the .NET Framework. Knowledge of Expression Blend is useful, but the author doesn't assume that you're a master of it. You'll learn the Blend techniques that you need to know as you go along. By the end of the book, the author will have provided you with a sound, concise, path to mastery of Silverlight 2. What you'll learn * Emigrate your existing .NET skills to Silverlight 2 as quickly as possible * Learn everything you need to know to start developing quality Silverlight 2 applications with confidence * Explore techniques and best practices in code--heavy, relevant case studiesWho this book is for This book is for .NET developers, whether they are already using...
