You are the one in control of the decisions that are made. There are hundreds, thousands of books and eBooks out there that try to tackle succeeding in college. Many of them are confusing and complicated. Others seem like they were for someone who has already earned their doctoral degree. My goal for this book is simple. I wanted to create an easy to read and easy to follow guidebook, complete with principles you can put into action from the minute you read them. In just five practical chapters, we re going to tackle some of the most Critical issues you ll face. Those issues are Assessing Where You Stand, Learning the Basics of Team Building, Stakeholders Relationship Development, Measurement and communication, and Having Fun.
