Not illustrated. 1892 Excerpt: .particularly valuable for instantaneous and short-time exposures; are rigidly rectilinear and symmetrical; possess wonderful penetration and definition, and are the lightest and most compact of any lenses in the market--a matter of no small moment to the landscape photographer. The No. 5 Lenses will make life-size heads, sharp and free from distortion. They are in use in many of the leading galleries of the country. These Lenses since their first introduction have enjoyed an unusual popularity and are beyond doubt destined to become the best known Lenses in the American market, due to their merits only. We are desirous that they be compared in every direction with the best foreign productions of similar type. They are of the rectilinear, compound type, intended for studio work and all kinds of out-door photography. They are in no manner an imitation of any form, but have a construction peculiarly their own, the result of years of experiment to reach the highest results. The glass is specially manufactured, of unusual hardness and brilliancy, involving specially favorable curves and the practical advantage that the Lenses are not liable to become scratched or undergo chemical changes. The cement is absolutely colorless and not liable to deterioration. The mountings are of neat design, well finished and carefully centered. The diaphragm rings, which have been in use several years, have found general commendation. They are readily attached or removed, and for ordinary work may be left undisturbed. By means of them the angle...
