GEOLOGY OF THE COUNTIES EXAMINED. -, YAKIMA OOITNTY. My reconnoissance covered about two-thirds of Yakima county, leaving unexplored an irregular belt, from 30 to 50 miles broad, extending eastward from the crest of the Cascade mountains. The recent discovery of anthracite coal at Cowlitz pass, in this unexplored tract, shows that an important chapter in the geological history of the county there awaits investigation. This region also contains much that is especially attractive to the general traveler in search of the picturesque and beautiful. It is a land of magnificent mountains and wild canyons, and is clothed with forests up to the beginning of the snow fields on the higher summits. Mount Tacoma, the loftiest peak in the state of Washington, stands near its western border, while Mount Adams, even more prominent as seen from many points of view to the eastward, is wholly within...
